Our Mission

The **Academy of Public Leadership's (APL)** mission is to prepare students to be successful in college and to become active servants in the community. The school is an academically rigorous and community service based institution providing educational opportunities for students. The Public Leadership Academy creates an environment that fosters critical thinking, problem solving, and public advocacy skills by combining a comprehensive, standards-based curriculum with education about law, democracy, and human rights. By linking the curriculum to career pathways students will have the opportunity to develop the necessary skills to succeed in the real world.

Our Vision

Through inquiry-based instruction and curriculum that is both integrated and deep, students will have the ability to solve complex problems, think critically, and advocate persuasively for themselves and their communities. Students will graduate from APL with the skills, knowledge, leadership capabilities, and confidence to pursue their dreams, excel in their studies, and become productive, empowered, civic-minded citizens whose decisions and actions effect positive change in their communities.
